# *The first PORTABLE SHOWER totally independent, safer and hy*

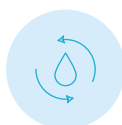

Wib is the new **portable bath**, dedicated to the hygiene of the bedridden people. **Compact and functional**, it allows to manage showering and drying with maximum efficiency for the operator and no discomfort for the patient.

## **BENEFITS**

Battery powered, combined with reduced dimensions, allows higher freedom of movement for staff, facilitating the management of hygiene treatments. It also ensures sufficient autonomy to complete nursing tasks for at least three consecutive patients.

Wib is equipped with a self-cleaning mechanism by high level disinfectant, able to restore autonomously the conditions of hygiene of the device at the end of the workday. It does not require the operator intervention and allows to optimize time.

The reliability of the temperature regulation and control system guarantees a maximum oscillation of  $\pm 0.5^{\circ}\text{C}$  with respect to the set temperature and ensures maximum comfort for the bedridden person.

# FUNCTIONS

## Showering

With the aid of the special waterproof cover, the staff can easily complete the washing, bidet and shampoo operations.

## Drying

Once drained the waste water, the operator can proceed to the drying of the patient through the warm air emanator.

## Sanitization

At the end of the day, the device performs an automatic washing cycle in all its parts, which provides the disinfection and restores the hygiene conditions.

### Main Features

- Operating mode by battery supply (at least 3 patients)
- Fully automatic water filling/discharging
- Working temperature 25° to 40°C
- Flushing enables between  $\pm 0.5^\circ\text{C}$  set point

### Water Volume

- Two 20 liters tanks

### Power Supply

- Voltage 110 V – 230 VAC 50/60 Hz
- Consumption 250 – 3200 VA

### Dimensions

- H 1050 x W 480 x L 550 mm
- Weight approx. 45 Kg

### Quality Certification

- UNI EN ISO 9001:2015
- UNI EN ISO 13485:2016

### Compliance

- Safety Standards IEC 60601-1 & IEC 60601-1-2
- CE acc. Council Directive 93/42/EEC
